Why do I get ';ct_init ERROR 19:133:0'; ?

Author: Veryant Support
Saved From: http://support.veryant.com/support/phpkb/question.php?ID=233

This error means that you';re working, in your isCOBOL Framework configuration file(default /etc/iscobol.properties), with the property:

iscobol.file.index=ctree2

The error 19:133 means that the c-tree Server is not active.
