

# How can I improve the startup time?

*Author: Veryant Support*

*Saved From: <http://support.veryant.com/support/phpkb/question.php?ID=249>*

Our documentation provides some information and guidelines about this argument. Please check the following topics starting from 'isCOBOL Evolve-> Appendices-> Performance Tuning';.

Please also consider that the class loading time is a small matter in a thin client environment, as only the first client session will be affected whilst all other clients will find classes in memory.
