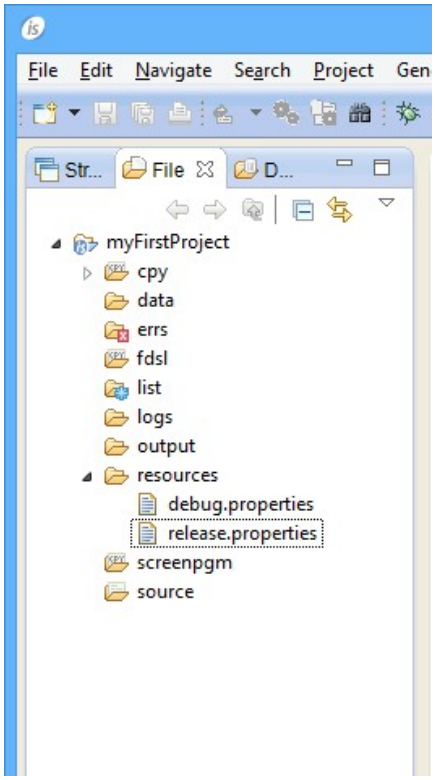
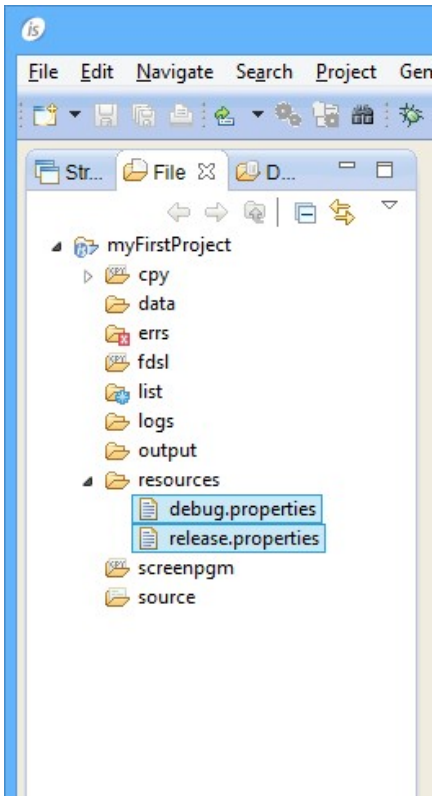
Did you know you can compare text files using the isCOBOL IDE?

The isCOBOL IDE includes a text file comparison feature.
In order to take advantage of this feature

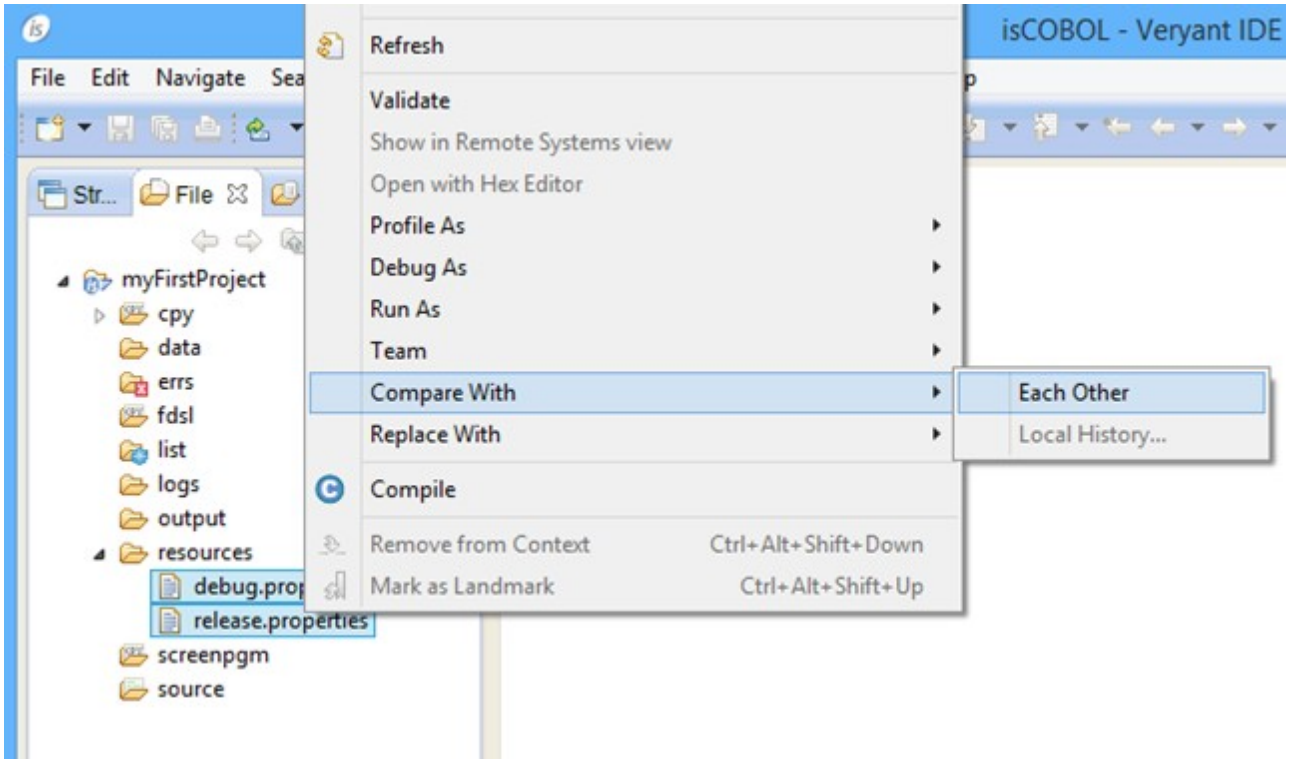
1. Copy or link your text files to one of your project folders, unless they're already there



2. Select the two files that you want to compare by clicking on them while you hold the CTRL key



3. Right click and choose 'Compare With-> Each Other' from the pop-up menu



This is what you get
